ABOUT

Bsf - Smart Chemical Solutions for Construction & DIY

Bsf is a **Spanish brand** built on innovation, quality, and sustainability, delivering high-performance chemical solutions that empower modern construction and DIY projects.

Our portfolio covers **Silicone Sealants, Construction Adhesives, Polyurethane Foams, PVC Adhesives, Waterproofing Systems, and Construction Chemicals** materials that play a small role in cost but make a big difference in performance, durability, and aesthetics.

We go beyond products - providing **expert technical support, personalized service,** and **consistent quality** to ensure every project achieves stronger, longer-lasting results.

At Bsf, we don't just supply materials - we build **trust, reliability,** and **innovation** into every application.

CHOICES

GP+

ACETOXY SILICONE

GENERAL PURPOSE SILICONE SEALANT

A high-performance acetoxy silicone sealant designed for general sealing and bonding applications in construction and DIY projects.

FEATURES

-  **ANTI-FUNGAL**
Resists mould and mildew growth
-  **ANTI-MOULD**
Long-lasting protection against mould
-  **WEATHERPROOF**
Excellent resistance to weather and UV
-  **KITCHEN & BATHROOM**
Ideal for wet areas and sanitary applications
-  **FAST CURING**
Quick & reliable seal for every project

WS+

NEUTRAL SILICONE

WEATHER SEALANT

A premium neutral silicone sealant specially formulated for building façades, metal, glass, and high-temperature applications.

FEATURES

-  **SPECIALIZED SEALANT**
Ideal for building façades, metal and glass
-  **HIGH TEMPERATURE RESISTANCE**
Can withstand temperature up to 250°C
-  **EXCELLENT ADHESION**
Strong bond on multiple non-porous surfaces
-  **WEATHER RESISTANT**
UV, rain and extreme weather protection
-  **FAST CURING**
Quick & durable seal for every project

UltraBond Pro

HIGH TACK | WHITE | MS POLYMER BASED

UltraBond Pro is a high performance MS Polymer based adhesive with an initial tack of just 3 seconds and exceptional holding power of up to 400kg/dm. Designed for professionals who demand strength, speed & reliability in every application.

FEATURES

- INITIAL TACK IN 3 SECONDS**
Instant grip for faster installation and reduced support time
- EXCEPTIONAL HOLD STRENGTH**
Can hold up to 400kg/dm² for powerful, lasting bonds
- WEATHERPROOF**
Resistant to UV, rain, humidity and extreme temperatures
- MARINE GRADE**
Ideal for marine and high moisture environments
- SUITABLE FOR ALL MATERIALS**
Concrete, bricks, marbles, tiles, all kind of metals, rigid PVC, ABS, wood, MDF and more
- APPLY DIRECTLY UNDER WATER**
Advanced formula allows application even under water

IDEAL FOR

- STAIR FIXING
- WALL PANELS
- METAL FIXING
- STONE & MARBLE
- WOOD & MDF

UltraHold Max

HIGH TACK | TRANSPARENT | MS POLYMER BASED

UltraHold Max is a premium MS Polymer based transparent adhesive with an initial tack of 3 seconds. It delivers a strong, invisible bond on a wide range of materials and can be applied directly under water, making it the perfect choice for versatile and demanding applications

FEATURES

- INITIAL TACK IN 3 SECONDS**
Instant grip for faster installation and reduced support time.
- WEATHERPROOF**
Resistant to UV, rain, humidity and extreme temperatures
- APPLY DIRECTLY UNDER WATER**
Advanced formula allows application even under water
- MARINE GRADE**
Ideal for marine and high moisture environments
- SUITABLE FOR ALL MATERIALS**
Glass, metal, concrete, bricks, marbles, tiles, all kind of metals, rigid PVC, ABS, wood, MDF and more.

IDEAL FOR

- GLASS INSTALLATION
- METAL FIXING
- BATHROOMS
- STONE & MARBLE
- CONCRETE & BRICKS
- WOOD & MDF

NAILFREE FIX

SOLVENT FREE | BEIGE | CONSTRUCTION ADHESIVE

NailFree Fix is a high performance, solvent free construction adhesive with quick grab and strong holding power. It provides excellent adhesion on a wide range of substrates and is suitable for both interior and exterior applications.

FEATURES

-  **QUICK GRAB**
Instant grab for faster installation.
-  **HIGH HOLDING STRENGTH**
Can hold up to 75kg/dm² for reliable bonding
-  **WEATHERPROOF**
Resistant to UV, rain, humidity and extreme temperatures
-  **INTERIOR & EXTERIOR**
Can be applied both inside and outside
-  **PAINTABLE AFTER DRYING**
Can be painted after full cure
-  **SUITABLE FOR ALL MATERIALS**
Concrete, bricks, marbles, tiles, all kind of metals, rigid PVC, ABS, wood, MDF and more.

IDEAL FOR

-  **MIRRORS & FRAMES**
-  **DECORATIVE PANELS**
-  **WOOD & MDF**
-  **METAL FIXING**
-  **TILES & STONE**
-  **GENERAL CONSTRUCTION APPLICATIONS**

PROCORE-430

PU Sealant for Precast Concrete & Civil Applications

ProCore-430 is a gun-grade, non-sag polyurethane sealant that cures with moisture, providing rapid skin formation and fast curing. It delivers long-term durability, excellent UV resistance, and consistent performance in demanding construction & precast joint applications.

FEATURES

-  **RAPID SKIN FORMATION**
Quick skin formation for faster project progress.
-  **FAST CURING**
Moisture curing formula ensures quick and reliable curing.
-  **NON-SAG FORMULA**
Gun grade, non-sag consistency for vertical and horizontal joints.
-  **EXCELLENT UV RESISTANCE**
Resists UV exposure and harsh environmental conditions
-  **LONG TERM DURABILITY**
Provides lasting elasticity and strong joint performance.

IDEAL FOR

-  **PRECAST JOINTS**
-  **CONSTRUCTION JOINTS**
-  **EXPANSION JOINTS**
-  **CONCRETE & MASONRY**
-  **GENERAL SEALING APPLICATIONS**

BONDINKIT

UNIVERSAL CONTACT ADHESIVE

PRODUCT DESCRIPTION

Bondinkit is a high solid, synthetic rubber-based elastomeric contact adhesive designed for universal applications and DIY use. It exhibits excellent wet tack, strong initial grab, and high bonding strength with upholstery and rexine. The adhesive provides superior adhesion to both porous and non-porous substrates and offers outstanding resistance to heat and chemicals.

FEATURES

-  **EXTREME INITIAL GRAB**
High immediate tack for fast bonding.
-  **HIGH HEAT RESISTANCE**
Withstands high temperatures without weakening
-  **TOLUENE-FREE FORMULATION**
Safer to use with low odour formula
-  **RAPID FLASH-OFF 2 MINS**
Quick drying for faster productivity
-  **CHEMICAL RESISTANCE**
Resists contact with oils, solvents & chemicals

AVAILABLE PACKAGING

600ML

2.5L
NET VOLUME

SUITABLE FOR

WOOD & PARTICLE BOARD

LEATHER & REXINE

PLASTIC & METAL PANELS

CORK & CANVAS

LINOLEUM & FLOORING

FOAM & SOUND INSULATION

IDEAL FOR REPAIR & DIY APPLICATIONS

SHOES REPAIR

BAGS & LUGGAGE REPAIR

TOYS & HOBBY PROJECTS

CARPETS & UPHOLSTERY

HANDICRAFT & DIY WORK

POUR & SEAL MS

HIGH-PERFORMANCE POURABLE, SELF-LEVELING CRACK & JOINT SEALER

PRODUCT DESCRIPTION

High-performance MS polymer based pourable sealant specially engineered to seal and protect cracks and joints in concrete, floors, roofs, parking areas and other structures. It offers excellent adhesion, flexibility and durability, even in extreme weather conditions and structural movements.

FEATURES

-  **HIGH ELASTICITY**
Accommodates movement and prevents re-racking.
-  **EXCELLENT ADHESION**
Bonds strongly to concrete, masonry, metal & more
-  **WATERPROOF SEAL**
Provides a watertight and leak-proof barrier.
-  **CHEMICAL & UV RESISTANT**
Resists chemicals, UV rays and harsh weather
-  **EASY POUR & LEVEL**
Self-leveling for smooth and uniform finish.
-  **FAST CURING 2X FASTER CURING**
Quick strength gain for faster project completion.

AVAILABLE PACKAGING

500ML
NET VOLUME

1.5L
NET VOLUME

IDEAL FOR

CONCRETE CRACKS

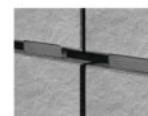

FLOOR CRACKS

ROOF CRACKS

PARKING AREAS

EXPANSION JOINTS

TYPICAL APPLICATIONS

RESIDENTIAL BUILDINGS

COMMERCIAL STRUCTURES

FOAMPRO 750

One-component polyurethane foam designed for filling, sealing and insulating joints, gaps and cavities. Provides excellent thermal and acoustic insulation with strong adhesion to most construction substrates.

FEATURES

- UP TO 50x EXPANSION**
High expansion yield for better coverage
- HIGH YIELD EXPANSION**
Excellent filling capacity with high output.
- EXCELLENT THERMAL INSULATION**
Reduces heat transfer and saves energy
- ACOUSTIC INSULATION**
Reduces noise transmission up to 60 dB.
- STRONG BOND**
Superior adhesion on multiple surfaces.
- AIR TIGHT SEAL**
Seals gaps & prevents air infiltration.
- WATER RESISTANT**
Resists moisture and mold
- ENERGY EFFICIENT**
Improves building efficiency and comfort
- FAST CURING**
Cures quickly for faster completion.
- PROFESSIONAL GRADE**
Reliable results every time.

APPLICATIONS

EP GROUT 2K

Two-component high-performance epoxy grout designed for demanding tile installations. Delivers exceptional stain resistance, chemical resistance and waterproof performance with a smooth professional finish.

FEATURES

- STRONG BOND**
Exceptional adhesion & long-lasting durability
- CHEMICAL RESISTANT**
Resists stains, acids & household chemicals
- STAIN RESISTANT**
Keeps joints clean and stain free
- WATERPROOF**
Non-porous & impermeable for wet areas.
- ANTI-MOULD**
Resists mould growth in damp conditions.
- ANTI-BACTERIAL**
Inhibits bacterial growth.
- SMOOTH FINISH**
Fine texture, glossy & matte finishes.
- UNIFORM COLOUR**
Consistent color without fading.
- EFFORTLESS CLEANING**
Easy to clean and maintain.

APPLICATIONS

BOND | SEAL | FILL

AutoBond PU

PROFESSIONAL AUTOMOTIVE
PU ADHESIVE & SEALANT

HIGH PERFORMANCE
BONDING & SEALING

AutoBond PU is a one component, moisture curing polyurethane-based adhesive (medium viscosity) which provides a high strength material designed to bond and seal vehicle windshields, backlights, and sidelights. It offers excellent adhesion to glass and metal.

FEATURES

KEY FEATURES

-  **HIGH BONDING STRENGTH**
Excellent adhesion to glass and metal
-  **NON-SAG FORMULA**
Thixotropic, non sag consistency
-  **FAST CURE**
Safe drive away time as per standards
-  **EASY GUNNING**
Smooth application with caulking gun

-  **10-15 MIN WORK TIME**
Optimum open time for easy installation
-  **CAN BE OVERPAINTED**
Paintable after curing
-  **AUTO GLASS COMPATIBLE**
Safe for all types of automotive glass

AquaBond+

THF - FREE HIGH PRESSURE PVC ADHESIVE

ENGINEERED FOR EXTREME PRESSURE

AquaBond+ is a THF-free, solvent-based synthetic adhesive specifically designed for rigid PVC pipes operating under high pressure. It provides excellent adhesion, easy application and moderate thixotropy for reliable bonding performance. Suitable for potable water systems and certified according to UNE-EN 14814:2007.

- ✓ Complies with UNE-EN 14814:2007
- ✓ Approved for thermoplastic piping systems up to PN16
- ✓ Suitable for Drinking Water Pipelines

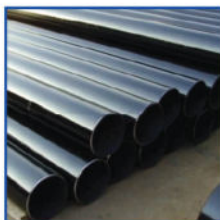

AVAILABLE PACKAGING

250ML
WITH BRUSH

500ML
WITH BRUSH

500ML
WITHOUT BRUSH

IDEAL APPLICATIONS

RIGID UPVC PIPES

DRINKING WATER
PVC PIPING PROJECTS

WATER DISTRIBUTION
NETWORKS
